

May 7, 2020

To Whom It May Concern:

West Campus Development Trust (the Trust) would like to advise you of upcoming construction taking place in the community of University District that will result in temporary road closures during the week of May 25th.

The Trust has hired Aecon Transportation West Ltd. to build a temporary retail surface parking lot located at the intersection of University Avenue and McLaurin Street (formerly lot 57). As a result of this work, Children's Way from Children's Drive to McLaurin Street will be closed for approximately four to six days. Accommodations for emergency vehicles and transit will be in place to allow movement to Children's Drive NW.

We anticipate construction of the parking lot to be complete six weeks from commencement, which is currently scheduled for the week of the May 25th. Thanks in advance for your patience as our vision for University District continues to progress. Please reach out to us should you have questions or concerns.

Sincerely,

James Robertson, President & CEO
WEST CAMPUS DEVELOPMENT TRUST
