TEMPORARY RESIDENT PARKING IN BLOCK 13 A/B WILL CLOSE AS OF AUGUST 11, 2023

Dear U/D Residents,

It is with great excitement to inform you that the Surface Final Acceptance Certificate (FAC) work, which includes paving, has been completed ahead of schedule. The dedication and perseverance from our construction team and valued contractors has supported this necessary city process and drove the work program safely for the betterment of our community.

Since May, we have offered temporary resident parking in Block 13 a/b to alleviate some construction impacts. A map is provided below. Now that the Surface FAC work has been completed, the temporary resident parking in Block 13 a/b will be closed as of August 11, 2023 to support future development. Residents will no longer be able to access this lot after this date. All vehicles remaining after August 11 will be at risk to be towed at the owner's expense. Please consider your residential building parking options, street parking or the paid surface lots west of Save-On-Foods.

Parking Offences
During the paving process, we offered alternative parking in identified lots and worked with Calgary Parking Authority (CPA) to waive all costs. If you received a parking ticket between July 16-19, please contact info@ucpg.ca. All offences have been waived during this timeframe.

We appreciate your cooperation during a busy construction season. We are committed to further developing University District into an award-winning community. If you have any questions, please contact me at jtran@ucpg.ca.

Sincerely,

Jacqueline Tran
